ULMA Retrofit TS offers a complete range of modernisation approaches for your system. We will be happy to provide you with an aditional offer with the most economically reasonable services according to your conditions and specifications.

TRAYSEALERS RETROFIT

Maintenance savings

- Filter for vacuum valves
- Teflon coated knife
- · Slight vacuum valve
- Output saturation photocell

Machine upgrading fo r

new applications

Skin Protruding Kit

Map Kit

Skin Kit

· Leaf-skin Kit

Cleaning

• Easy clean system

- Film centering device
- Consumption detection of resistors
- Ulma Energy System consumption data

- Die holder trolley
- Tool storage rack
- Heating system die holder trolley
- Heating system for tool storage rack

Quality product appereance

- Film centering device
- Codifier
- Volatile product kit

- Ulmatest
- Metal detector
- "Anti-crash" system
- Gas analyse device
- Antistatic bar
- Sealing pressure control by UPC screen

Flow automation

- Reel roller buffer
- Denesters
- Tray flow regulator
- Rotary table
- Input/output belt
- Infeed conveyor with pushers
- By-pass belt

New formats

- New die
- Retrofit die

Machine/line availability

- Industry 4.0
- Root vacuum pump
- Automatic roll change
- Mould breakdown resistor control
